a case study is an appropriate way to answer broad research questions, by providing us with a thorough understanding of how the process develops in this case. Whether its results can be generalised in other contexts remains an open question,

What is a Case Study? - SAGE Publications

A case study is a story about something unique, special, or interesting—stories can be about individuals, organizations, processes, programs, neighborhoods, institutions, and even events. 1 The case study gives the story behind the result by capturing what happened
