The purpose of a structural steelwork specification is to state what materials and products should be used and how work (fabrication and erection) should be carried out, in order to ensure that the completed structure meets the designer's assumptions and the client's needs.

Safety and Weld Processes. There is only one weld process in which the stainless, duplex and nickel alloy weld fumes should not be a concern and that weld process which provides the least possible weld fumes, is a process that I and my partner Tom O' Malley bought to North America and Australia.
