

the participatory cultures handbook pdf

Culture (/ ˈkʌltʃ ˈtɛmər /) is the social behavior and norms found in human societies. Culture is considered a central concept in anthropology, encompassing the range of phenomena that are transmitted through social learning in human societies.

Culture - Wikipedia

Participant observation is one type of data collection method typically used in qualitative research. It is a widely used methodology in many disciplines, particularly cultural anthropology, European ethnology, sociology, communication studies, human geography and social psychology.

Participant observation - Wikipedia

Liberating Structures are immeasurably practical. Our world is increasingly complex, interdependent, and culturally diverse. Many of our most pressing challenges cut across geographic, cultural, and technical boundaries.
